PHYS379 Group 3 Minutes

Date and Time: 02/02/2023 @ 14:00
Location: Library A9 Study Space

1. **Appointment of chair & secretary**

Sam is appointed secretary

2. **Presentation for Tuesday (PLAN!)**

Preparing a plan and presentation separately. The two projects will prepare their own specific slides separately using a collaborative PowerPoint, with some general slides at the start.

3. **Prepare sheet we have to hand in to Edward on Tuesday**

One side of A4 sheet required for a plan. Requires a Gantt chart. Both projects are being done in one plan and one Gantt chart. Just one paragraph per project. Gantt chart can be edited collaboratively.

4. **Plans for next week**

Willow and Ana are going to code Grover's algorithm in python. Sam will try and get a quantum Fourier transform in python for N qubits. Sid will try and get RSA algorithm working.

5. **AOB**
